Warm-Up

Today you will need your notebook and pencil.
Homework Page due Friday.

- Review: Name three of the seven reasons for why we have variety in climates across the Earth.
 - Latitude
 - Topography
 - Closeness of lakes and oceans
 - Availability of moisture
 - Global wind patterns
 - Ocean currents
 - Air masses

Köppen Classification System

March 31, 2015

Today's Outline

- Read the short introduction about the **Köppen Classification System** for climates as well as microclimates.
- Complete and **turn-in** the activity practicing with the Köppen Classification System.

Today's Goal

- Compare and contrast different climates in terms of the Köppen Classification System
